## Adding Cengage 1.3 to Your Course

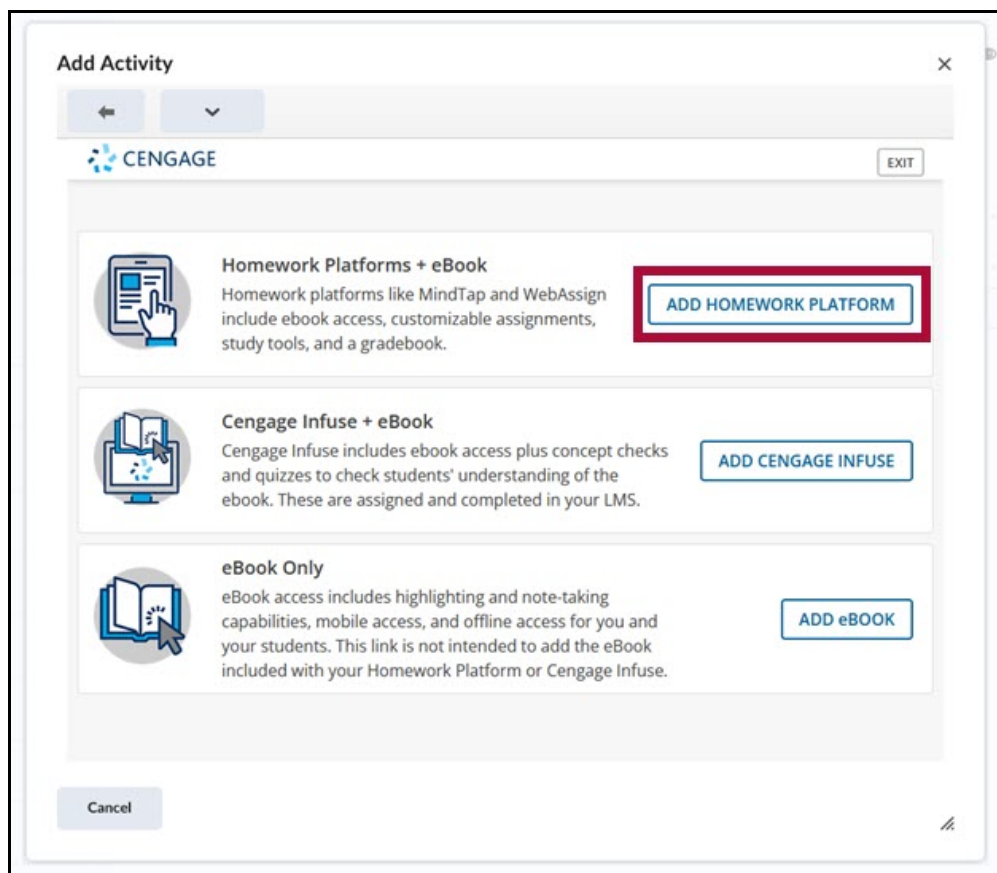

1. Create a new module and name it **[Cengage 1.3]**.  
Click on **[Add Existing Activities]** -> **[Add Cengage Content]**.

**NOTE:** You may have to enable pop-ups on your web browser for the Cengage Content

window to appear.

2. Click on **[Add Homework Platform]**.

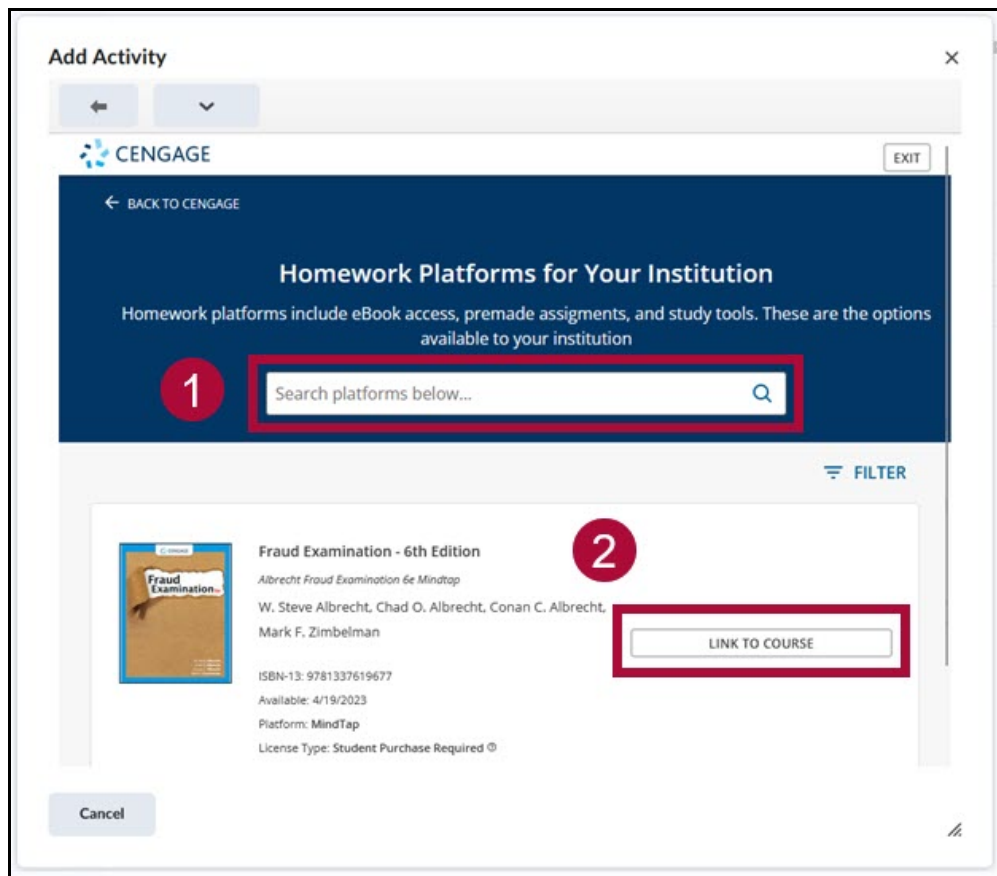

3. You can find your textbook In the **Search** field below. Use a generic word for phrase for a

proper search.

Once the textbook is found, select **[Link to course]** next to your textbook.

**NOTE:** To find the correct textbook, you **DO NOT** want to input a specific name, such as part of the title or the author's name.

4. On the following page, you'll be presented with the following options:

- A. **[Create a new course]** – Fill in the required fields as shown: Course Name, Start date, End date, Time zone.
- B. **[Copy from an Existing Course]** – Allows you to copy a course from a course that you previously built.
- C. **[Copy from a Course Key]** – Select this if your department has a master course to copy from. This requires a **Course Key** from the master course creator.
- D. **[Link to existing course]** – Links this course to an already existing course.

Click **[Continue]** to complete this step.

**NOTE:**

- 1) The last three choices here (B, C, D) can only be selected **if there are no students in the course yet**. If there are students, select **[Create a new course]**.
- 2) The Course Name will be imported from D2L. Feel free to change it if necessary.
- 3) The chosen **Start and End date** only controls student access to **Cengage**.

Select individual MindTap activities to add to your D2L gradebook. Each activity is a separate gradebook entry.  
This is recommended if you use the D2L gradebook to calculate final grades.

**NOTE:** Cengage WebAssign **does NOT** have an **[Overall Score Option]**. Only **[Add Activity Score]** is available.

☐ **Add overall scores**

The overall scores calculated in your MindTap gradebook are added to your D2L gradebook. This is recommended if you use the MindTap gradebook to calculate final grades, and you do not plan on assigning graded work in D2L.
