Edit Quiz - Availability Dates & Conditions

Last Modified on 09/18/2023 11:51 am CDT

The first section of the right panel is the **Availability Dates & Conditions** section. Expand it by clicking on **[Availability Dates & Conditions]**.

Coffee Quiz

	Timing & Display ▷
	No time limit Header and footer added
Eq. Preview	Attempts & Completion
Total Points 5	1 attempt allowed
Add 🗸 Move To 🗸 More Actions 🗸	Evaluation & Feedback
e brewing method involves a semi hour-shaped glass? 1 point	Auto-publish results Sync to grade book 1 result display

The **Availability Dates & Conditions** section of the right panel consists of five subsections.

	Availability Dates & Conditions	
	Start Date	
	M/D/YYYY	
A	End Date	
	M/D/YYYY	
В	Release Conditions	
	Users are not able to access or view the quiz unless they meet the release conditions.	
	Add Release Condition 🗸	
C	Special Access	
	Special Access allows quizzes to be available to only a select group of users or individualized due dates for certain users.	
	Manage Special Access	
D	Password	
	Only users who enter this password will be granted access to write this quiz.	
Đ	IP Restrictions	
	Manage IP Restrictions	

Start Date & End Date

By clicking on the **[Start Date]** and **[End Date]** fields, you can specify a date/time on when your quiz ends or a date range in which your quiz is available to students.

Start Date	
☐ 7/17/2023 12	:01 AM
End Date	
7/20/2023	:59 PM
Add availability dates	to Calendar

Quiz dates can also be added to your **Course Calendar** by checking the **[Add availability dates to Calendar]** checkbox, located below the **[End Date]** fields.

End Date		
📋 7/20/2023 11:59 PM		
Add availability dates to Calendar		

NOTE:

1) If you give the quiz an end date but NO due date , the end date will display on the calendar.

2) If you give the quiz a start date but NO end date or due date , the start date will appear on the calendar.

An important distinction between **Due Dates** and **End Dates**:

- The **Due Date** is the date after which quiz submissions will be **flagged late**.
- The End Date is the date after which the students will be unable to access the quiz.

Due Date 11:59 PM	Start Date
	 End Date 11:59 PM

In this example, the 24 hours between 7/19 11:59 PM and 7/20 11:59 PM can be seen as a **"Grace Period"** in which students can still submit their quiz, although it would be flagged as late. After the **End Date**, students will no longer be able to access the quiz.

Release Conditions

By setting up **Release Conditions**, students will not be able to access or view the quiz unless they meet the Release Conditions.

1. Click on [Add Release Condition] to toggle the options to [Create New] or [Add Existing].

2. Clicking on [Create New] will open the Create a Release Condition window.

NOTE: Please refer to the list of Release Condition Types (https://vtac.lonestar.edu/help/releaseconditions-types) and Best Practices for Release Conditions (https://vtac.lonestar.edu/help/release-conditionsbest-practices) for more details on how to setup and configure Release Conditions.

Special Access

[Manage Special Access] allows quizzes to be available to only a select group of students or individualized due dates for certain students. Please refer to the article on Granting Students Special Access in a Quiz (https://vtac.lonestar.edu/help/quiz-special-access) for more details.

Special Access	
Special Access allows quizzes to be available to only a select group of users or individualized due dates for certain users.	
Manage Special Access	
Password	
Only users who enter this password will be granted access to write this quiz.	
IP Restrictions	
Manage IP Restrictions	

Password

To access a quiz, students must enter the same **Password** you input here.

NOTE: You can also enter a password in the **LockDown Browser Dashboard**. This could result in the student being required to enter two different passwords at two different times.

IP Restrictions

Students can only access a quiz from the IP address ranges you specify here. Leave fields blank to allow multiple IP address access points. Click on **[+ IP Range]** to add an IP address range. You can add multiple IP address ranges.

IP Restrictions (IPv4)			
Only learners coming from IP addresses that meet the defined restrictions can write the quiz.			
IP Range Start	IP Range End	Delete	
		Î	
+ IP Range			
Add Cancel			

To specify a range of accepted IP addresses, enter four sets of values ranging from 0 to 255 separated by a period in the **IP Range Start** and **IP Range End** fields, respectively. An example IP address would be [155.55.5.15]. The **IP Range Start** value must be *lower* than the **IP Range End** value.

To include an **individual IP address**, only specify the **IP Range Start** value.

NOTE: Please contact your local campus IT (https://www.lonestar.edu/OTS-OnCampus.htm) for assistance with IP Restrictions for in-person exams.
