The **Evaluation & Feedback** panel on the right side of the **Edit Quiz** page is located towards the bottom. Expand it by clicking on **[Evaluation & Feedback]**.

Deduct Points for Incorrect Answers

When the **[Deduct points for incorrect answers]** box is checked, students will receive negative points for incorrect answers. For each question answered incorrectly, a percentage of the question's point value will be deducted from the student's attempt grade.

You can adjust the deduction amount in the **percentage box**.

Auto-Publish Results

With **[Auto-publish attempt results immediately upon completion]** turned on, the auto-

evaluated attempt results will be published and appear to students.

NOTE: If questions cannot be evaluated automatically (e.g. written response questions), those questions will be **automatically scored with a zero until manual evaluation**.

Synchronize to Gradebook on Publish

With [**Synchronize to grade book on publish**] turned on, the student's grade will be automatically published to the gradebook once it has been evaluated.

NOTE: The quiz must be linked to a grade item in the gradebook for this option to be available, otherwise it would be grayed out.
